Live Like Cati

CENTRAL TEXAS 

What We Do:

Live Like Cati is dedicated to preventing childhood drowning by expanding access to essential summer camp water safety, equipping summer camp staff with critical training, supplying free life jackets to children and families at summer camps, and promoting evidence based policies that improve water safety standards throughout Texas.

Get Involved:

- **Join the fight** to prevent childhood drownings in Texas and beyond
- **Partner with us** to help expand our programs
- **Volunteer** to support outreach and water safety education
- **Offer your expertise** to guide BEST PRACTICES
- **Provide financial support** to sustain and grow statewide initiatives
- **Become a Stakeholder** to advocate for stronger water safety policies
- **Help duplicate Cati's Law (HB 59)** in your state, building on the legislation passed by the Texas Legislature

Team Kareem Memorial Foundation

Arkeisha Reese

What We Do:

Team Kareem Memorial Foundation is dedicated to preventing drowning and water-related tragedies through education, advocacy, and community partnership.

We provide:

- Water safety education for families and children
- CPR and emergency preparedness awareness
- Community workshops and prevention events
- Inclusive and equitable aquatics advocacy
- Support and connection for families impacted by drowning

Our mission is simple: To ensure no family experiences a preventable water-related tragedy.

FLORIDA

Get Involved:

Prevention is a shared responsibility.

Here's how partners and communities can support the mission:

- Partner with us to expand water safety education
- Sponsor swim lessons, lifeguard and CPR trainings
- Host community awareness events
- Advocate for equitable access to aquatic resources
- Volunteer your time and expertise
- Donate to support life-saving programming

When we work together, we move from awareness to impact – and from tragedy to prevention.

Hawaii Water Safety Coalition

THE HAWAIIAN ISLANDS

What We Do:

The Hawaii Water Safety Coalition works to reduce drownings and expand access to water safety education. Hawaii has the nation's second-highest drowning rate, with Native Hawaiians and Pacific Islanders facing the greatest risk. Drowning is the leading cause of death for our children ages 1-15 and of injury-related death for our visitors.

Get Involved:

Help us implement the Hawaii Water Safety Plan to create generational change. We need:

Members to expand programming

Volunteers for outreach and education

Expert guidance on best practices

Funding to sustain statewide programs

Advocacy support to strengthen policy
